

<p>SMALL CAPSULES FOR BIG AND HEALTHY PLANTS</p>	<p>Description </p> <hr/> <p>MAKABI-AGRITECH d.o.o. is a consultancy and service company, and is engaged in the development of new agrochemical microcapsules formulations that can be offered on the market. We are offering technology solutions to those interested in the agroecological production of healthy and biofunctional food. We are not dealing with the mass production of food and plant protection/nutrition products.</p>
<p>MAKABI AGRITECH d.o.o.</p>	<p>Business Model </p> <hr/> <p>One of the main tasks of the interdisciplinary scientist team of MAKABI-AGRITECH d.o.o. is to make organic green food easily accessible for everyone across the globe and reduce the environmental harm caused by today's agriculture. The goal is to decrease and/or throw out the use of heavy organic chemicals (herbicides, pesticides, insecticides) in agriculture production. Our solution to the problem of over usage of organic chemicals (pesticides, insecticides, herbicides, and other agrochemicals) is a SMART BIOPOLYMER CAPSULE with 3 in 1 effect:s</p>
<p>Category</p> <hr/> <p>Air, water & environment; Food and beverage; Agriculture; Materials Innovation; Microbiology; Chemistry; Cosmetics; Biotech</p>	<p>Target </p> <hr/> <p>We want to make a connection and collaboration with companies with similar mission and vision in the area of agroecological production for technology and knowledge transfer in the process of new product preparation.</p>
