

DESIGNING  
UNCONVENTIONAL SPACES  
FOR NEW COMMUNITIES  
USING GREEN  
TECHNOLOGIES

## Description

---

Echipa de proiectare is a integrative design lab for modular structures, using green technologies and supporting new communities.

ECHIPA DE PROIECTARE  
Romania

## Business Model

---

Our laboratory of design is providing the following Design Build and Operate services : - project development & implementation, - integrated Design-Build- Operate services. together with our partners

## Category

---

Green building; Smart building

## Target

---

Echipa de proiectare together with our partners will redesign and produce -OUTofBOX wood-frame prototype 0.2 - a new woodframed module using sustainable materials. This target will be achieved by 1 or more building partnerships/contracts. Our second target is to develop a research partnership throughout a contract/partnership for research purposes. The third target is to develop our team capabilities with new team members, and at least 1 fair participation with the OUT of BOX team,
