

We are designing unconventional modular spaces for new communities using green technologies.

Description

OUT of BOX is a team of designers, architects and engineers that works in partnership with local modular builders in order to provide modular spaces equipped with green technologies.

OUT of BOX
Romania

Business Model

Unconventional modular buildings are our solution for the future. We are addressing the need for unconventional spaces by providing modular tiny houses, home offices or mobile showrooms for new communities using green technologies.

Category

Green building; Smart building

Target

The first prototype of OUT of BOX
