

<p>Enjoy the ride! Every day! Everywhere!</p>	<h3><u>Description</u></h3>  <p>Reactive Boards aims at making the most intuitive electric longboards on the market. Using one will revolutionize how you get around the city. Going to work has never been more fun ? not to mention green.</p>
 <p>Reactive Boards Romania</p>	<h3><u>Business Model</u></h3>  <p>With every year the number of cars driving around a city is increasing, leading to higher rates of pollution, longer times spent in the car and more frustrated people. Most people drive alone, making driving one of the most inefficient ways of traveling inside the city. We want to change that. Riding a Reactive Board is greener, healthier, and most importantly, FUN.</p>
<h3><u>Category</u></h3> <p>Mobility, transport & logistics; Smart (e)mobility; Other Vehicles</p>	<h3><u>Target</u></h3>  <p>The target for us for 2019 is to reach a production ready prototype and increase our brand visibility, so that next year we can start production and sales.</p>
