

<p>Optimization of logistics, especially road transport (route optimization).</p>	<p><u>Description</u> </p> <p>Spark inovacije works on route optimization for road logistics, especially in distribution. We would also like to work on Traffic Management Centers of new generation, helping cities to manage better their traffic flows.</p>
<p>SPARK INOVACIJE D.O.O.</p> <p>SPARK inovacije Slovenia</p>	<p><u>Business Model</u> </p> <p>We save money (10-30%) for logistics companies, using route optimization. Currently our business model are fees per each included vehicle.</p>
<p><u>Category</u></p> <p>Mobility, transport & logistics; Traffic Management</p>	<p><u>Target</u> </p> <p>We want to improve our traction on the market.</p>
